THE ARGYLE
Luxury Boutique Hotel

# FOOD SAFETY POLICY

At **Argyle**, we are committed to ensuring a safe, hygienic, and welcoming environment for all our guests. We strive to provide safe food by minimizing all potential hazards through strict control of **biological, chemical, and physical contaminants**, and by taking immediate corrective actions to prevent recurrence when deviations are identified.

Our operations fully comply with **national laws, regulatory requirements**, and the **ISO 22000:2018 Food Safety Management System standard**.

We are dedicated to establishing effective **internal and external communication channels** to support the successful implementation and continual improvement of the Food Safety Management System (FSMS).

To achieve our food safety objectives, we allocate all necessary resources and maintain a team of **highly competent personnel**. We are committed to providing ongoing **training, awareness, and support** to enhance their performance and accountability.

We conduct **regular monitoring and evaluation** of our operations to ensure effectiveness, meet customer expectations, and enhance overall guest satisfaction.

At Argyle, food safety is a shared responsibility, and we embrace it as an essential part of our excellence in hospitality.
